

PRODUCT UPDATE | MK-40 MER-KO TOPCOAT

Dear Westcoat Customer,

Mer-Ko is proud to announce our improved MK-40 Mer-Ko Topcoat. MK-40 Mer-Ko Topcoat is a high-performance 100% acrylic water-based coating, that has excellent resistance to weather and dries quickly.

MK-40 is designed to be used as the topcoat for Weather Deck and Shur Deck Systems.

Some of the benefits and improvements made to these materials are:

- Enhanced product stability
- Greater ease of mixing
- Better color stability
- Adjusted lower viscosity to help with roller application
- Increased sheen to semi-gloss, for greater ease in cleanability
- Updated Color chart with 5 new colors and 5 discontinued colors

Effective Date

Starting June 26th 2023 or all batch numbers 23177 or later.

Advisory

MK-40 may appear different from previous batches. It is recommended to avoid use with previous batches, to ensure consistent sheen, color and overall finish.

If you have any additional questions on this improved formula, please contact your local Mer-Ko Sales Representative or contact us at 1-844-537-7203
