

Product Code	Product Name	Shelf Life	Batch Code
MK-1	Weather Deck Body Cement	1 yr	*Cement Code
MK-2	Weather Deck Fine Cement	1 yr	*Cement Code
MK-5	Shur Deck Cement	1 yr	*Cement Code
MK-6	Shur Deck Fine Cement	1 yr	*Cement Code
MK-10	Underlayment Cement	1 yr	*Cement Code
MK-25	Mer-Ko Membrane	1 yr	Reverse Julian
MK-26	Mer-Ko Sprayable Membrane	1 yr	Reverse Julian
MK-30	Weather Deck Emulsion	2 yrs	Reverse Julian
MK-40	Mer-Ko Topcoat	2 yrs	Reverse Julian
MK-50	Mer-Ko Water-Based Epoxy	3 yrs	Reverse Julian
MK-52	Mer-Ko Epoxy Patch Gel	2 yrs	Reverse Julian
MK-61	Sheet Membrane Primer	1 yr	Reverse Julian
MK-62	Sheet Membrane	1 yr	Reverse Julian
MK-65	Weather Deck Slip Sheet	Indefinite	Reverse Julian
MK-70	Shur Deck Metal Lath	Indefinite	Reverse Julian
MK-71	Shur Deck Glass Lath	5 yrs	Reverse Julian
MK-72	Seam Tape	1 yr	Reverse Julian
MK-75	Mer-Ko Fiber Lath	5 yrs	Reverse Julian
MK-80	Mer-Ko Burlap	Indefinite	Reverse Julian
MK-85	Shur Deck Staples	Indefinite	Reverse Julian
MK-86	Mer-Ko Slip Resistant Additive	Indefinite	Reverse Julian
MK-90	Mer-Ko Polyurethane Caulking	1 yr	Reverse Julian
MK-95	Slip Sheet Adhesive	1 yr	Reverse Julian
Reverse Julian: 1st 2 numbers indicate the year. Next 3 are the day of the year. The letter corresponds to the run of the day. Example: 21292A: 21=2021, 292= 292nd day = Oct 19th, 2021, First product run of the day			
*Cement Code: First 3 numbers are the batch, letter corresponds to month A=Jan, B=Feb (To avoid confusion, the letter "I" is not used), next two numbers are the day, last number is the year. Ex: 122 H 301 = Batch # 122 Made Aug 30th, 2021			
The Shelf Life applies to products that are properly stored, in original, unopened packaging. All products should be stored so they are neither exposed nor in contact with moisture and materials should be kept between 50-85°F. Freezing of Water-Based products will void the shelf life. All products that are not listed on this sheet do not have a shelf life when properly stored.
